

## Trough conveyor for woodrecycling

**Product group:** Trough conveyor

**Industrial process:** Discharging, feeding, conveying

**Industry:** Recycling, Environment, Glass

**Type of drive:** Unbalance motor

**capacity (t/h):** 50 | **bulk:** mixed wood | **density (t/m<sup>3</sup>):** 0,2 | **grain size (mm):** 0-350

**function:**

Transport of 50 t/h mixed wood installed in recycling plant, grain size up to 350 mm, including possibility by means of perforated plate for screening.

**solution:**

AVITEQ Trough conveyor with length of 3500mm and 2500mm and a width of 1400mm. Spezial lining an two unbalanced motors (UVH-46W). Trough is 500 mm high and supported on compression springs.

**usability:**

almost maintenance free operation designed for heavy duty and reliable operation.

**place of installation:** Germany
