

## Hopper discharging of medical tablets

**Product group:** Small conveyor

**Industrial process:** Discharging, feeding, conveying

**Industry:** Chemicals, Plastics, Pharmaceuticals

**Type of drive:** small conveyor drive

**capacity (t/h):** 2 | **bulk:** Tablettis | **density (t/m<sup>3</sup>):** 0,79 | **grain size (mm):** 10

**function:**

Bunker discharge of 2000 kg/h easy conveyable product (medical tablets) bulk density 0,79 kg/dm<sup>3</sup>.

**solution:**

Trough made from stainless steel c/w round shaped inlet nozzle. Trough c/w oval shaped outlet nozzle. Trough covered with opening (glass covered) for cleaning including quick acting clamping system. Max. possible capacity 30m<sup>3</sup>/h. (KF Typ KF24/1000/460)

**usability:**

- low installation height required even with biggertrough dimension

- Advantages of dosing with magnetic drive.

**place of installation:** Switzerland
